Pro Balls to		37 c/b

HOW FAR DO YOU HIT EACH CLUB?

75 metres puts you in the face of a bunker, 90 leaves you pin high on the green, and 100 is in the water hazard; which Wedge are you going to use? And are you making a full, confident swing?

Knowing exactly how far you carry each club in the bag is a fundamentally important part of the game. Use our online form to record your yardages and identify your distance gaps.

UNDERSTANDING BOUNCE

There are many factors which will dictate how your Wedge interacts with the ground and your golf ball, but one of the most important is BOUNCE.

It's the reason why one Wedge will lift a ball with ease out of a bunker, but will then be completely incapable of nipping a ball cleanly off of a tight lie. Click below and we explain how it works.
